PROJECTS

TALKative app

ReactJs && Material-UI && NodeJs && Express && MongoDB && Socketio

Solo Project executed in a week.

This project is created to understand how a social networking app works and the logic behind them.
The best part?

- User can register through Google authentication.
- Chat with friends. Online and offline indication.
- Send images(jpg,png) and pdf in chat and we can also download them.
- I used Socket.IO to create real-time chat between friends.

Tech Stack: ReactJs || Material-UI || NodeJs || Express || MongoDB || Socketio

Google Docs Clone

ReactJs && Material-UI && NodeJs && Express && MongoDB && Socketio

Solo Project executed in a week.

This is a Google Docs inspired, Real time collaboration. Work on documents at the same time with those you've shared the document with.

The best part?

- This was a week long project I used to learn web sockets.
- I used Socket.IO to create and consume web sockets, to provide real-time collaboration between share Id, similar to Google Docs.
- Stored the data in objects in MongoDB.

Tech Stack: ReactJs || Material-UI || NodeJs || Express || MongoDB || Socketio

Notes-Keeper

ReactJs && Material-UI

This is a Google Keep inspired, Notes keeping app.

The best part?

- All the notes you save are kept locally on your computer!
- In this clone you can archive the notes.
- In this clone you can delete the notes and also restore the deleted notes.
- Dropdown and Mini variant Drawer from Material-UI framework.

Tech Stack: HTML || CSS || Javascript || ReactJs || Router

React-Quiz

ReactJs && Material-UI

Building of React Quiz app

The best part?

- Having the login page.
- Total 24 categories of different fields.
- With the help of Trivia API.
- Work with the complex states.

Tech Stack: HTML || CSS || Javascript || ReactJs || Router
